# STIENEN BE

Farm*Remote*

## Access to your farm controls at any time and place in the world

- Remotely monitore your farm
- Secure and fast connection with the WEB-SEC interface
- Easy to set on your PC, smartphone or tablet
- No subscription fee

Secure connection with WEB-SEC

WEB-SEC creates a secured and encrypted VPN connection (Virtual Private Network) with a cloud server. Using a smartphone, tablet or PC you can make a secure connection with the cloud server and taking over the display and keyboard from the Stienen control concerned. In this way it is possible to safely monitor and necessarily intervene in your farm at any time and place in the world.

✳ Only the new generation of Stienen controls has the Remote Control function: PL-9500, PL-9400, PFA-9400, PFV-9400, KL-6400, KFM-6400, CLK-20, WEB-485 (CPU's without EPROM)

✓ First check if your installer has configured (and activated) the Remote Control function.

Activating Remote Control

1. Go to the user settings of the control to be remotely operated and select successively:
   System -> Remote control:

```
82 Remote control

Disclaimer
Manufacturer accepts no responsibility
for damage when using Remote Control.
You need to provide a secure
LAN environment shielded from the
internet through a firewall.

Remote control                        yes
User                              . . . .
Access code                       . . . .
IP address          . . . . . . . . . . .
```

2. Set *Remote control* to *yes*;
3. Set a *User name* and *Access code* (unequal 0000);

Using Remote Control

1. Log in into the IXON platform: https://connect.ixon.cloud/.

2. Click on HTTP SERVER of the device into which you want to log in. A Login window appears.
3. Log in with your *User name* and *Access code* and confirm by clicking *Login*.

Each device has its own tab bearing the name of the control concerned.

Stienen BE does not take any responsibility for a malfunctioning of its controls caused by an unsecure remote control connection (without WEB-SEC).

Stienen BE, Agri Automation

Stienen BE is a leading family company (1977) which has strong roots in the livestock farming. By nature we are very close to the farmer. We are a global supplier of innovative automation solutions for poultry and pig farms. Climate solutions, automation systems, management software and peripheral equipment are developed and produced in-house.
